PROFESSIONAL SUMMARY

Detail-oriented IT undergraduate (3rd year) specializing in Information Technology with hands-on experience in full-stack development using MERN stack. Proficient in manual testing methodologies, API testing with Postman, and creating user-centered designs using Figma. Demonstrated ability to deliver quality software solutions through systematic testing approaches, bug tracking, and intuitive user interface design. Strong analytical skills with experience in test case development, regression testing, and responsive design implementation. Seeking to leverage technical expertise and passion for quality in a QA Engineer or UI/UX Designer internship role.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)

BSc (Hons) in Information Technology (Information Technology Specialization)

June 2023 – Present

Dharmapala National College, Bandarawela

Advanced Level – Biotechnology Stream

June 2020 – January 2023

Credential ID: CL-BS5154

[DOE Certificate](#)

PROJECTS

GrocerEase Lanka – Logistics Management System

Tech Stack: React.js, Node.js, MongoDB, Express.js, TypeScript, Figma, Postman

A full-stack logistics management web app for managing inventory, warehouses, deliveries, and supplier data.

- Developed a modular MERN-based platform with JWT authentication and role-based access control
- Conducted manual testing using Postman for API validation, created functional test cases for core modules
- Built responsive UI using React with focus on user experience and accessibility
- Created wireframes and interactive prototypes using Figma before final UI development
- Implemented features like real-time stock warnings, report generation, and data visualizations
- Collaborated in an Agile workflow, using Git for version control
- **GitHub:** <https://github.com/dulsara30/logistics-management-system>

Online Hotel Reservation System

Tech Stack: Java, JSP, MySQL, HTML/CSS, JavaScript, Apache Tomcat

A booking system enabling users to search, book, and manage hotel rooms online.

- Designed and implemented MVC-based architecture using JSP and Java
- Developed secure login and profile management with session handling

- Created detailed test cases for all modules, conducted functional and UAT testing
 - Used usability testing feedback to improve UI – achieving 95% satisfaction in internal surveys
 - Responsive and mobile-friendly interface to enhance accessibility
 - Deployed using Apache Tomcat with MySQL database integration
 - **GitHub:** <https://github.com/Kavindya-Liyanaarachchi/Online-hotel-reservation-system>
-

Online Recipe Management System

Tech Stack: PHP, MySQL, JavaScript, HTML, CSS, XAMPP

A web-based platform for users to create, save, and manage personal recipes.

- Developed CRUD-enabled application with user authentication
 - Conducted input validation testing, end-to-end testing, and database integrity tests
 - Designed mobile-first, responsive UI with a focus on intuitive navigation
 - Created Figma-based wireframes and conducted informal user research to improve UX flow
 - Built an admin panel for content moderation and user activity tracking
 - **GitHub:** <https://github.com/Kavindya-Liyanaarachchi/Online-recipe-management-system>
-

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, TypeScript, PHP, C, C++, Kotlin, R

Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js, Tailwind CSS

Databases: MySQL, MongoDB, NoSQL

Testing & QA Tools: Postman, Manual Testing, Test Case Development, API Testing, Cross-browser Testing

Design & UX Tools: Figma, Wireframing, Prototyping, Responsive Design, User Interface Design

Development Tools: Git, GitHub, Eclipse, VS Code, Android Studio, XAMPP, Apache Tomcat, Trello, JIRA

Testing Methodologies: Manual Testing, Functional Testing, API Testing, User Acceptance Testing

Design Methodologies: User-Centered Design, Responsive Design, Mobile-First Design, Design Thinking

Architecture & Frameworks: MVC Architecture, RESTful APIs, Agile Methodology, Scrum

SOFT SKILLS

Analytical problem-solving with attention to detail | Cross-functional team collaboration in Agile environments | Problem Solving | Team Collaboration | Time Management | Communication Skills

CERTIFICATIONS & CONTINUOUS LEARNING

- **Postman API Testing** - Self-taught through documentation and practice
- **Figma UI/UX Design** - Completed online tutorials and practical projects
- **Agile Testing Methodology** - Academic coursework and practical application
